Re: Public Records Act Request

Dear Mr. Guenette:

Per your request under the Public Records Act enclosed please find those complaints received by the Trinity County Planning Department between April 1, 2011 and June 8, 2011. As you will see, the majority of complaints were received via the County's web based complaint form and relate alleged marijuana growing operations that may be in conflict with the current cultivation moratorium adopted by the Board of Supervisors, However, there area also complaints related to other issues involving potential land use or development code violations. The detailed information that would either identify the alleged violator or the complaining party has been redacted at the direction of County Counsel to protect both parties.

I trust that this is responsive to your specific request.

Sincerely,

A handwritten signature in blue ink, appearing to read "Frank Lynch".

Frank Lynch  
Senior Planner
