As background she is out of the country on a previously scheduled anniversary trip with her husband. The letter was forwarded to her blackberry (which is only functioning intermittently) yesterday and when she got it she could not read it on bberry. She reached me late last night and I read it to her. The hill has been advised by Cathy Barre that the letter was forwarded and that Lois is on previously approved leave.

I will look for and forward the letter to Chris and Mark you will want to read it.

I need to talk to someone about whether I have to meet with Issa people based on the "request." I don't know what the rules are and if I'm going to talk to a lawyer, I need as much info as I can get. Do you know what office can provide me with the rules and my options?
