SUBJECT: CRIMINAL COMPLAINT – ICC reference: OTP-CR-473/21

Dear Ambassador to the Security Council Mr. Tirumurti,

YOU can **save the world and humanity** in one single action!

On behalf of ALL humanity, for our greater good, for our protection and preservation, this letter is an **URGENT APPEAL** to YOUR better nature and to the epitome of duties that have been bestowed upon you in your official capacity as **esteemed Ambassador of India to the UN Security Council**, to act as steward for the sanctity of human life and on behalf of the spectacular world we graciously call our Earthly home.

This letter now seeks your support and assurance of referring UK lawyer Hannah Rose's CRIMINAL COMPLAINT -- ICC reference: OTP-CR-473/21 -- to the Prosecutor of the International Criminal Court at The Hague, The Netherlands.

The lawlessness of deliberately targeting individuals -- both civilian and military -- by deliberate development *and* deployment of prohibited biological weapons under the guise of the COVID-19 virus and related “vaccines” -- was designed and intended to kill a mass number of men, women and children, via the use of COVID-19 messenger RNA human gene “therapies”.

This is genocide. As such, it violates specific provisions of the Rome Statute by also violating the Biological Weapons Convention, the Genocide Convention, and numerous provisions of related international laws including but not limited to Article 7 in the International Covenant on Civil and Political Rights.

Therefore, we are at an inflection point. The facts are overwhelming and undeniable. They establish that WE THE PEOPLE of the world have been violently misled by false propaganda, fabricated with a specific intent to conceal the real intent of certain bad actors who are now expressly named in UK lawyer Hannah Rose's CRIMINAL COMPLAINT, ICC reference: [OTP-CR-473/21](#).

The charges in that CRIMINAL COMPLAINT are provable by authentic, verifiable data and indisputable EVIDENCE. Without a shred of any doubt, that EVIDENCE CONFIRMS that bad actors, lacking regard for the sanctity of all human life and insulated by a “culture of impunity,” have implemented unthinkable and intentional homicidal actions by constructing and releasing upon humanity worldwide a monstrous, genocidal apparatus of biological weapons.

OWING TO THE SCALE, SCOPE and MAGNITUDE OF THESE HORRORS, in order to prevail against the extensive resources of that genocidal machine, now proven to be responsible for these atrocities against humanity worldwide, it is therefore only with YOUR blessing and support for the sanctity of humanity and human life in general that this mass murderous and genocidal machine can possibly be held accountable.

Life.

We are life.

We are human.

We are our world.

We are its children.

We are stewards of all who precede and succeed us.

We are the essence of individual humanity encoded, **not by the hand of another**, but by the essence of life.

Freedom is life without shackles, life without chains, life without threats of biological weapons falsely advertised, promoted and even *mandated* as beneficial “vaccines.”

Human life is not a commodity. Human life is our inalienable right. Human life is not designed or destined for total enslavement, homicidal entertainment, or compulsory experimentation either.

Human life is not at the whim of anyone to exterminate, to wipe from the Earth, to erase, to extinguish, to nullify or void. Nor is the heritage or lineage of some for the taking, while simultaneously preserving, safeguarding, securing, and continuing the same for a select group of others.

Additionally horrendous is this: experts at **Team Enigma** calculating COVID-19 vaccine lot and batch number deaths, categorizing them by male and female have concluded: deaths of women, the childbearing gender, are far more frequent than those of men.

No man is a God.

As stewards and ambassadors of the world, through your expression, your free will, your purpose, your intent and the official mission of the UN Security Council, also guided by the powers of your individual self-determination, your responsibilities, and your obligation to the world and its children, I write on behalf of humanity worldwide seeking your blessing in the form of a FORMAL REFERRAL of UK lawyer Hannah Rose's CRIMINAL COMPLAINT -- ICC reference: [OTP-CR-473/21](#) -- to the International Criminal Court for timely and appropriate criminal prosecution.

Short of action to any lesser degree on behalf of humanity itself as implored upon you herein, it is foreseeable that the UN Security Council will have no conceivable usefulness, going forward, beyond a pattern of historical abuse as a tool wielded under the corrupted command of tyrants drunk on power and control, to orchestrate blind advance and the inevitability of a global apocalypse engineered by totalitarian dictators.

As the totality of matters confirmed by renowned legal, medical, philosophical, political, ethical and many other experts in their fields have already attested, THERE IS NO OPTION AT THIS POINT OTHER THAN

TO COMMAND DECISIVE DIRECTION in your capacity as Ambassador of good versus evil, on behalf of the world and the very existence of humanity itself, to recommend FORMAL REFERRAL of UK lawyer Hannah Rose's CRIMINAL COMPLAINT -- ICC OTP-CR-473/21 -- from the UN Security Council to the Office of the ICC Prosecutor.

In closing, delusional minds, now forged by evil, have instigated, orchestrated and implemented mass genocide on the world's human population.

ONLY YOU are the hope and the light for judicial accountability to redress the factual reality and colossal nature of these crimes against humanity, as properly alleged and enumerated in Hannah's CRIMINAL COMPLAINT.

WE THE WORLD of sons, daughters, fathers and mothers, sisters and brothers ... WE THE PEOPLE are relying on YOU.

Respectfully,
